## Championing Early-Stage Bio-Entrepreneurs

Boehringer Ingelheim knows what it takes to be innovative and entrepreneurial. From the small factory in 1885 to today's multi-billion-dollar global organization, we know how important it is to nurture and develop young science and technology businesses.

## A Pioneering Mentoring Initiative

Boehringer Ingelheim Office Hours offers small companies and entrepreneurs individual attention in an informal 'office hours' atmosphere. Designed as a consultative 'round table' meeting, this pioneering mentoring initiative 'lifts the lid' on how big pharma works and provides access to expertise, an industry perspective and feedback to emerging life-science businesses. Our 'no strings attached' policy means there are no restrictions or conditions associated with Office Hours which encourages open dialog from both parties.

### Access to expertise:

- Research & preclinical development
- Biology & Chemistry
- Medicine (Clinical development)
- Pipeline management & marketing
- Business development

## How Office Hours Works

In advance of your personalized one-hour session, you will be asked to submit some **non-confidential** background information about your technology and up to five questions regarding your programs and company. This helps us get a better understanding of your company so we can answer your questions more effectively. Senior professionals from Boehringer Ingelheim will tailor a brainstorming session to focus on your company's interests, and address topics such as pre-clinical and clinical development, research strategy, business development and commercial potential.

## Office Hours Fibrosis

Our global team of experts will be on hand to share their experience in preclinical and clinical development for anti-fibrotic therapies across different indications including lung, liver, skin, gut and eye.

**Your Next Office Hours session  
April 15<sup>th</sup> 2021.**

Our global teams of experts are available in all time zones.  
Fully virtual event. Online meeting details will be provided.
