

DIGITAL SCIENCE

Boehringer Ingelheim welcomes collaborations with partners in **digital science**, who share our passion for improving the health and wellbeing of animals, to help us find solutions to some of the biggest challenges in animal health today.

Pursuing Innovation

- Identifying and translating the most promising digital innovations into impactful applications across a broad range of research fields
- Focus on:
 - Health monitoring solutions driving actionable improvements of outcomes
 - Health data management and assessment (e.g., AI-based algorithms)
 - Innovative engagement solutions for vets, producers & pet owners.

Actively pursuing new partnerships in our areas of interest and open to a variety of partnership models to explore:

- Digital platforms and applications to support veterinary – pet owner communication
- Technology platforms to support data management
- Digital diagnostic and monitoring tools.
